

# Map Symbol: Preplan

Exported: 1/13/2015 5:38:43 PM

## Layer Category: Alarm Detectors, Simple

Layer Description: A simple list of alarms and detectors following a scheme similar to NFPA 1610. Uses a red triangle for most of the symbols. Pre-incident symbols are colored in with a color or has a background.

Symbol	Layer	Shape	Description
	NO Alarm or Detector	Point	A symbols that represents NO Alarm or Detector
	Air and Smoke Removal Devices	Point	A symbols that represents Air and Smoke Removal Devices
	Alarm Communication	Point	A symbols that represents Alarm Communication
	Alarm Control Panels	Point	A symbols that represents Alarm Control Panels
	Alert Devices	Point	A symbols that represents Alert Devices
	Duct Detector	Point	A symbols that represents Duct Detector
	Heat Detector	Point	A symbols that represents Heat Detector
	Public Alert Alarm Boxes	Point	A symbols that represents Public Alert Alarm Boxes
	Smoke Detector	Point	A symbols that represents Smoke Detector

## Layer Category: Alarm Detectors, Detailed

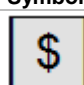

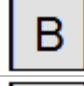

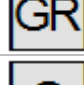

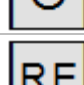

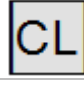

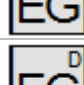

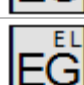

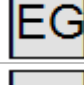

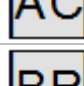

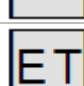

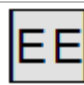

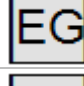

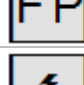

Layer Description: Alarms and detectors following a scheme similar to NFPA 1610. Uses a red triangle for most of the symbols. Pre-incident symbols are colored in with a color or has a background.

Symbol	Layer	Shape	Description
	AD Abort Switch	Point	A symbols that represents AD-Abort Switch
	AD Bell	Point	A symbols that represents AD-Bell
	AD Horn with Light 1	Point	A symbols that represents AD-Horn with Light 1
	AD Horn with Light 2	Point	A symbols that represents AD-Horn with Light 2

	AD Light	Point	A symbols that represents AD-Light
	AD Mini Horn	Point	A symbols that represents AD-Mini Horn
	AD Speaker and Horn	Point	A symbols that represents AD-Speaker and Horn
	AD Water Bell	Point	A symbols that represents AD-Water Bell
	AD Water Motor Alarm	Point	A symbols that represents AD-Water Motor Alarm
	AP Burglar Alarm	Point	A symbols that represents AP-Burglar Alarm
	AP FA Voice Comm Panel	Point	A symbols that represents AP-FA Voice Comm Panel
	AP Fire Alarm CP	Point	A symbols that represents AP-Fire Alarm CP
	AP Fire Alarm Communicator	Point	A symbols that represents AP-Fire Alarm Communicator
	AP Fire Alarm Reset Panel	Point	A symbols that represents AP-Fire Alarm Reset Panel
	AP Fire Alarm Transponder	Point	A symbols that represents AP-Fire Alarm Transponder
	AP Intercom Switchboard	Point	A symbols that represents AP-Intercom Switchboard
	AP Smoke Con Pressure Panel	Point	A symbols that represents AP-Smoke Con Pressure Panel
	Air Handling Shutoff	Point	A symbols that represents Air Handling Shutoff
	Comm Access	Point	A symbols that represents Comm- Access
	Comm Handset	Point	A symbols that represents Comm- Handset
	Comm Intercom	Point	A symbols that represents Comm- Intercom
	Comm Jack	Point	A symbols that represents Comm- Jack
	Comm Fire Annuciator	Point	A symbols that represents Comm-Fire Annuciator
	DD Flame	Point	A symbols that represents DD-Flame
	DD Flow	Point	A symbols that represents DD-Flow

	DD Gas	Point	A symbols that represents DD-Gas
	DD Heat	Point	A symbols that represents DD-Heat
	DD Level	Point	A symbols that represents DD-Level
	DD Pressure	Point	A symbols that represents DD-Pressure
	DD Smoke	Point	A symbols that represents DD-Smoke
	HD Fixed Temp	Point	A symbols that represents HD-Fixed Temp
	HD Other Heat	Point	A symbols that represents HD-Other Heat
	HD Rate Comp	Point	A symbols that represents HD-Rate Comp
	HD Rate of Rise	Point	A symbols that represents HD-Rate of Rise
	HD Rise and Fixed	Point	A symbols that represents HD-Rise and Fixed
	NO Alarm Communication	Point	A symbols that represents NO Alarm Communication
	NO Alarm Control Panel	Point	A symbols that represents NO Alarm Control Panel
	NO Detector	Point	A symbols that represents NO Detector
	NO Fire Alarm	Point	A symbols that represents NO Fire Alarm
	NO Smoke Removal	Point	A symbols that represents NO Smoke Removal
	Public Emer Alarm	Point	A symbols that represents Public Emer Alarm
	SD Beam Receiver	Point	A symbols that represents SD-Beam Receiver
	SD Beam Transmit	Point	A symbols that represents SD-Beam Transmit
	SD Ionization	Point	A symbols that represents SD-Ionization
	SD Photoelectric	Point	A symbols that represents SD-Photoelectric
	SD Smoke General	Point	A symbols that represents SD-Smoke General

Layer Description: Features inside a building such as rooms, common areas, businesses, or other features with a specific purpose

Symbol	Layer	Shape	Description
	Business Bank	Point	A symbols that represents Business- Bank
	Business Business	Point	A symbols that represents Business- Business
	Business Grocery	Point	A symbols that represents Business- Grocery
	Business Office	Point	A symbols that represents Business- Office
	Business Retail	Point	A symbols that represents Business- Retail
	C Child Daycare	Point	A symbols that represents C- Child Daycare
	C Classroom	Point	A symbols that represents C- Classroom
	C Nursery	Point	A symbols that represents C- Nursery
	EG Battery	Point	A symbols that represents EG- Battery
	EG Diesel	Point	A symbols that represents EG- Diesel
	EG Electric	Point	A symbols that represents EG- Electric
	EG Electric Battery	Point	A symbols that represents EG- Electric/Battery
	EG Emergency Generator	Point	A symbols that represents EG- Emergency Generator
	EL Air Conditioning	Point	A symbols that represents EL- Air Conditioning
	EL Boiler Room	Point	A symbols that represents EL- Boiler Room
	EL Electrical Transformer Rm	Point	A symbols that represents EL- Electrical Transformer Rm
	EL Elevator Equipment Room	Point	A symbols that represents EL- Elevator Equipment Room
	EL Emergency Generator Room	Point	A symbols that represents EL- Emergency Generator Room
	EL Fire Pump Room	Point	A symbols that represents EL- Fire Pump Room
	EL Powerline	Point	A symbols that represents EL- Powerline
	EL Telephone (In Building)	Point	A symbols that represents EL- Telephone (In Building)

## Layer Category: Preplan Features

	EL Telephone Equipment Room	Point	A symbols that represents EL- Telephone Equipment Room
	EL Transformer	Point	A symbols that represents EL- Transformer
	EL Electrical Room	Point	A symbols that represents EL-Electrical Room
	EL Electrical Vault	Point	A symbols that represents EL-Electrical Vault
	Emergency Control Station	Point	A symbols that represents Emergency Control Station
	Garbage Chute	Point	A symbols that represents Garbage Chute
	Garbage Dumpster	Point	A symbols that represents Garbage- Dumpster
	Garbage General	Point	A symbols that represents Garbage- General
	Garbage Recycling	Point	A symbols that represents Garbage- Recycling
	Location Carport	Point	A symbols that represents Location- Carport
	Location Catwalk	Point	A symbols that represents Location- Catwalk
	Location Diesel Gas	Point	A symbols that represents Location- Diesel Gas
	Location Gas Pump	Point	A symbols that represents Location- Gas Pump
	Location Guard Station	Point	A symbols that represents Location- Guard Station
	Location Kitchen Cooking Area	Point	A symbols that represents Location- Kitchen - Cooking Area
	Location Laundry Room	Point	A symbols that represents Location- Laundry Room
	Location Loading Dock	Point	A symbols that represents Location- Loading Dock
	Location No Parking	Point	A symbols that represents Location- No Parking
	Location Nurses First Aid Station	Point	A symbols that represents Location- Nurses/First Aid Station
	Location Parking	Point	A symbols that represents Location- Parking
	Location Security	Point	A symbols that represents Location- Security
	Location Storage	Point	A symbols that represents Location- Storage

	Location Truck Well	Point	A symbols that represents Location- Truck Well
	Med AED Site	Point	A symbols that represents Med- AED Site
	Med First Aid	Point	A symbols that represents Med- First Aid
	Med Medical Office	Point	A symbols that represents Med- Medical Office
	Restrooms	Point	A symbols that represents Restrooms
	Safe 1st Most Important	Point	A symbols that represents Safe- 1st Most Important
	Safe 2nd Most Important	Point	A symbols that represents Safe- 2nd Most Important
	Safe 3rd Most Important	Point	A symbols that represents Safe- 3rd Most Important
	Safe Area of Refuge	Point	A symbols that represents Safe- Area of Refuge
	Safe Bomb Shelter	Point	A symbols that represents Safe- Bomb Shelter
	Safe Decon Shower	Point	A symbols that represents Safe- Decon Shower
	Safe Eye Wash	Point	A symbols that represents Safe- Eye Wash
	Safe Hand Wash Station	Point	A symbols that represents Safe- Hand Wash Station
	Safe MSDS	Point	A symbols that represents Safe- MSDS
	Safe Operations Manual	Point	A symbols that represents Safe- Operations Manual
	Safe Safe Room	Point	A symbols that represents Safe- Safe Room
	Safe Tornado Shelter	Point	A symbols that represents Safe- Tornado Shelter
	Safe Vault	Point	A symbols that represents Safe- Vault

## Layer Category: Fire Suppression, Simple

Layer Description: A simple list primarily for fire suppression systems. Examples include fire department connection, sprinkler shutoff, hose connections.

Symbol	Layer	Shape	Description
	FDC	Point	A symbols that represents FDC

	Fire Pump	Point	A symbols that represents Fire Pump
	Fire Supp Control Panel	Point	A symbols that represents Fire Supp. Control Panel
	Fire Suppression System	Point	A symbols that represents Fire Suppression System
	NO Fire Suppression	Point	A symbols that represents NO Fire Suppression
	Riser	Point	A symbols that represents Riser
	Sprinkler Control Valves	Point	A symbols that represents Sprinkler Control Valves
	Sprinkler Coverage	Point	A symbols that represents Sprinkler Coverage
	Suppression Hose Discharge	Point	A symbols that represents Suppression Hose Discharge
	Ventilation Fan	Point	A symbols that represents Ventilation Fan

	FSCP Other	Point	A symbols that represents FSCP- Other
	FSCP Other Agent	Point	A symbols that represents FSCP- Other Agent
	FSCP Pull Station	Point	A symbols that represents FSCP- Pull Station
	FSCP Purge	Point	A symbols that represents FSCP- Purge
	FSCP Water	Point	A symbols that represents FSCP- Water
	FSCP Wet Chemical	Point	A symbols that represents FSCP- Wet Chemical
	Fire Pump	Point	A symbols that represents Fire Pump
	Fire Pump with Drives	Point	A symbols that represents Fire Pump with Drives
	FireExt Agent Storage Cont	Point	A symbols that represents FireExt- Agent Storage Cont
	FireExt CO2	Point	A symbols that represents FireExt- CO2
	FireExt Class K	Point	A symbols that represents FireExt- Class K
	FireExt Clean Agent	Point	A symbols that represents FireExt- Clean Agent
	FireExt Clean Gas	Point	A symbols that represents FireExt- Clean Gas
	FireExt Dry Chemical	Point	A symbols that represents FireExt- Dry Chemical
	FireExt Foam	Point	A symbols that represents FireExt- Foam
	FireExt Halon	Point	A symbols that represents FireExt- Halon
	FireExt Other Agent	Point	A symbols that represents FireExt- Other Agent
	FireExt Water	Point	A symbols that represents FireExt- Water
	FireExt Wet Chemical	Point	A symbols that represents FireExt- Wet Chemical
	Full Coverage	Point	A symbols that represents Full Coverage
	HD CO2 Reel Station	Point	A symbols that represents HD- CO2 Reel Station
	HD Dry Chemical Reel Station	Point	A symbols that represents HD- Dry Chemical Reel Station

## Layer Category: Fire Suppression, Detailed

Layer Description: A detailed list primarily for fire suppression systems. Examples include fire department connection, sprinkler shutoff, hose connections.

Symbol	Layer	Shape	Description
	FDC Sprinkler Connection	Point	A symbols that represents FDC- Sprinkler Connection
	FDC Sprinkler Standpipe Conn	Point	A symbols that represents FDC- Sprinkler Standpipe Conn
	FDC Standpipe Connection	Point	A symbols that represents FDC- Standpipe Connection
	FSCP Air	Point	A symbols that represents FSCP- Air
	FSCP CO2	Point	A symbols that represents FSCP- CO2
	FSCP Class K	Point	A symbols that represents FSCP- Class K
	FSCP Clean Gas	Point	A symbols that represents FSCP- Clean Gas
	FSCP Dry Chemical	Point	A symbols that represents FSCP- Dry Chemical
	FSCP Foam	Point	A symbols that represents FSCP- Foam
	FSCP Halon	Point	A symbols that represents FSCP- Halon

	HD Fire Hose	Point	A symbols that represents HD- Fire Hose
	HD Foam Reel Station	Point	A symbols that represents HD- Foam Reel Station
	HD Monitor Nozzle Charged	Point	A symbols that represents HD- Monitor Nozzle Charged
	HD Monitor Nozzle Dry	Point	A symbols that represents HD- Monitor Nozzle Dry
	HD Standpipe Discharge Dry	Point	A symbols that represents HD- Standpipe Discharge Dry
	HD Standpipe Discharge Wet	Point	A symbols that represents HD- Standpipe Discharge Wet
	HD Wall Hydrant	Point	A symbols that represents HD- Wall Hydrant
	NO FDC	Point	A symbols that represents NO FDC
	NO Fire Pump	Point	A symbols that represents NO Fire Pump
	NO Hose Discharge	Point	A symbols that represents NO Hose Discharge
	NO Sprinkler Control Valve	Point	A symbols that represents NO Sprinkler Control Valve
	NO Ventilation Fan	Point	A symbols that represents NO Ventilation Fan
	No Coverage	Point	A symbols that represents No Coverage
	Partial Coverage	Point	A symbols that represents Partial Coverage
	Riser Dry	Point	A symbols that represents Riser- Dry
	Riser Wet	Point	A symbols that represents Riser- Wet
	SprinklerShutoff General	Point	A symbols that represents SprinklerShutoff- General
	SprinklerShutoff NIV	Point	A symbols that represents SprinklerShutoff- NIV
	SprinklerShutoff OSY	Point	A symbols that represents SprinklerShutoff- OSY
	SprinklerShutoff PIV	Point	A symbols that represents SprinklerShutoff- PIV
	SprinklerShutoff WPIV	Point	A symbols that represents SprinklerShutoff- WPIV
	SprinklerShutoff Zone Valve	Point	A symbols that represents SprinklerShutoff- Zone Valve

	Unknown Coverage	Point	A symbols that represents Unknown Coverage
	Vent Boiler	Point	A symbols that represents Vent- Boiler
	Vent Chimney	Point	A symbols that represents Vent- Chimney
	Vent Damper, Barometric	Point	A symbols that represents Vent- Damper, Barometric
	Vent Damper, Fire	Point	A symbols that represents Vent- Damper, Fire
	Vent Damper, Fire Smoke	Point	A symbols that represents Vent- Damper, Fire/Smoke
	Vent Damper, Smoke	Point	A symbols that represents Vent- Damper, Smoke
	Vent Fan, Duct	Point	A symbols that represents Vent- Fan, Duct
	Vent Fan, General	Point	A symbols that represents Vent- Fan, General
	Vent Fan, Roof	Point	A symbols that represents Vent- Fan, Roof
	Vent Fan, Wall	Point	A symbols that represents Vent- Fan, Wall
	Vent HVAC	Point	A symbols that represents Vent- HVAC
	Vent Mechanical Hatch	Point	A symbols that represents Vent- Mechanical Hatch
	Vent Mechanical Ventilation	Point	A symbols that represents Vent- Mechanical Ventilation
	Vent Other	Point	A symbols that represents Vent- Other
	Vent Powered Vents	Point	A symbols that represents Vent- Powered Vents
	Vent Smoke Vent	Point	A symbols that represents Vent- Smoke Vent
	Vent Ventilation Opening	Point	A symbols that represents Vent- Ventilation Opening
	Vent Ventilation Shaft	Point	A symbols that represents Vent- Ventilation Shaft

## Layer Category: Feature Shutoff, Simple

Layer Description: A simple list of features that shut off utilities or product: Examples include electrical, gas, water, and communication shutoff. Uses a blue triangle scheme for most features

Symbol	Layer	Shape	Description
--------	-------	-------	-------------

	Air Handling	Point	A symbols that represents Air Handling
	Chemical	Point	A symbols that represents Chemical
	Electrical Shutoff	Point	A symbols that represents Electrical Shutoff
	Fuel	Point	A symbols that represents Fuel
	NO Feature Shutoff	Point	A symbols that represents NO Feature Shutoff
	Natural Gas and LPG	Point	A symbols that represents Natural Gas and LPG
	Refrigeration Shutoff	Point	A symbols that represents Refrigeration Shutoff
	Steam	Point	A symbols that represents Steam
	Telecommunications	Point	A symbols that represents Telecommunications
	Water	Point	A symbols that represents Water

	Fuel Pipeline SO	Point	A symbols that represents Fuel-Pipeline SO
	Fuel Pump SO	Point	A symbols that represents Fuel-Pump SO
	Gas CNG Main	Point	A symbols that represents Gas- CNG Main
	Gas CNG Sub	Point	A symbols that represents Gas- CNG Sub
	Gas LPG Main	Point	A symbols that represents Gas- LPG Main
	Gas LPG Sub	Point	A symbols that represents Gas- LPG Sub
	Gas Natural Main	Point	A symbols that represents Gas- Natural Main
	Gas Natural Sub	Point	A symbols that represents Gas- Natural Sub
	NO Air Handling	Point	A symbols that represents NO Air Handling
	NO Chemical Shutoff	Point	A symbols that represents NO Chemical Shutoff
	NO Electrical Shutoff	Point	A symbols that represents NO Electrical Shutoff
	NO Gas Shutoff	Point	A symbols that represents NO Gas Shutoff
	NO Water Shutoff	Point	A symbols that represents NO Water Shutoff
	Product General	Point	A symbols that represents Product- General
	Product Oxygen Control	Point	A symbols that represents Product- Oxygen Control
	Refridge Main SO	Point	A symbols that represents Refridge-Main SO
	Refridge Sub SO	Point	A symbols that represents Refridge-Sub SO
	Steam Main	Point	A symbols that represents Steam- Main
	Steam Sub	Point	A symbols that represents Steam- Sub
	Water Main Shutoff	Point	A symbols that represents Water Main Shutoff
	Water Meter	Point	A symbols that represents Water Meter
	Water Sub Shutoff	Point	A symbols that represents Water Sub Shutoff

## Layer Category: Feature Shutoff, Detailed

Layer Description: A detailed list of features that shut off utilities or product: Examples include electrical, gas, water, and communication shutoff. Uses a blue triangle scheme for most features

Symbol	Layer	Shape	Description
	Air Handling Shutoff	Point	A symbols that represents Air Handling Shutoff
	Comm Cable TV	Point	A symbols that represents Comm- Cable TV
	Comm Network	Point	A symbols that represents Comm- Network
	Comm Phone	Point	A symbols that represents Comm- Phone
	Electrical Inverter Shutoff	Point	A symbols that represents Electrical Inverter Shutoff
	Electrical Main Shutoff	Point	A symbols that represents Electrical Main Shutoff
	Electrical Meter	Point	A symbols that represents Electrical Meter
	Electrical Solar Panel Switch	Point	A symbols that represents Electrical Solar Panel Switch
	Electrical Sub Shutoff	Point	A symbols that represents Electrical Sub Shutoff

## Layer Category: Vertical Access Features, Simple

Layer Description: A simple list of features that identify vertical access point. Includes elevator, stairs, ladders. Uses a green triangle or square for base symbol.

Symbol	Layer	Shape	Description
	Access Shaft	Point	A symbols that represents Access Shaft
	Attic or Crawl Space	Point	A symbols that represents Attic or Crawl Space
	Elevator	Point	A symbols that represents Elevator
	Escalator	Point	A symbols that represents Escalator
	Fire Escape	Point	A symbols that represents Fire Escape
	Internal Space Access	Point	A symbols that represents Internal Space Access
	Manhole Access	Point	A symbols that represents Manhole Access
	No Vertical Access	Point	A symbols that represents No Vertical Access
	Roof Access	Point	A symbols that represents Roof Access
	Skylights	Point	A symbols that represents Skylights
	Stairs	Point	A symbols that represents Stairs

## Layer Category: Vertical Access Features, Detailed

Layer Description: A detailed list of features that identify vertical access point. Includes elevator, stairs, ladders. Uses a green triangle or square for base symbol.

Symbol	Layer	Shape	Description
	A Ladder Access	Point	A symbols that represents A- Ladder Access
	A Stair Access	Point	A symbols that represents A- Stair Access
	AS Confined Space Access	Point	A symbols that represents AS- Confined Space Access
	AS Crawl Space	Point	A symbols that represents AS- Crawl Space

	AS Hatch	Point	A symbols that represents AS- Hatch
	AS Opening	Point	A symbols that represents AS- Opening
	AS Utility Access Shaft	Point	A symbols that represents AS- Utility Access Shaft
	CS Hatch	Point	A symbols that represents CS- Hatch
	CS Ladder Access	Point	A symbols that represents CS- Ladder Access
	CS Stair Access	Point	A symbols that represents CS- Stair Access
	Elevator Dual Cylinder	Point	A symbols that represents Elevator- Dual Cylinder
	Elevator Dumbwaiter	Point	A symbols that represents Elevator- Dumbwaiter
	Elevator Electric	Point	A symbols that represents Elevator- Electric
	Elevator Freight	Point	A symbols that represents Elevator- Freight
	Elevator Freight Platform	Point	A symbols that represents Elevator- Freight Platform
	Elevator Geared Traction	Point	A symbols that represents Elevator- Geared Traction
	Elevator Gearless	Point	A symbols that represents Elevator- Gearless
	Elevator Holeless Hydraulic	Point	A symbols that represents Elevator- Holeless Hydraulic
	Elevator Hydraulic Freight	Point	A symbols that represents Elevator- Hydraulic Freight
	Elevator Hydraulic Passenger	Point	A symbols that represents Elevator- Hydraulic Passenger
	Elevator Roped Hydraulic	Point	A symbols that represents Elevator- Roped Hydraulic
	Elevator Vehicle	Point	A symbols that represents Elevator- Vehicle
	Elevator Vert Wheelchair Lift	Point	A symbols that represents Elevator- Vert Wheelchair Lift
	FE Ladder Access	Point	A symbols that represents FE- Ladder Access
	FE Slide	Point	A symbols that represents FE- Slide
	FE Stair Access	Point	A symbols that represents FE- Stair Access

	NO Attic Access	Point	A symbols that represents NO Attic Access
	NO Elevator	Point	A symbols that represents NO Elevator
	NO Roof Access	Point	A symbols that represents NO Roof Access
	RA Ladder Access	Point	A symbols that represents RA- Ladder Access
	RA Stair Access	Point	A symbols that represents RA- Stair Access
	Skylight Fixed	Point	A symbols that represents Skylight-Fixed
	Skylight Self Opening	Point	A symbols that represents Skylight- Self Opening
	Stairs Double Stairs	Point	A symbols that represents Stairs- Double Stairs
	Stairs Escalator	Point	A symbols that represents Stairs- Escalator
	Stairs Fire Escape	Point	A symbols that represents Stairs- Fire Escape
	Stairs Ladder	Point	A symbols that represents Stairs- Ladder
	Stairs Ramp	Point	A symbols that represents Stairs- Ramp
	Stairs Single (NORMAL)	Point	A symbols that represents Stairs- Single (NORMAL)
	Stairs Spiral Stairs	Point	A symbols that represents Stairs- Spiral Stairs
	Stairs Stairlift	Point	A symbols that represents Stairs- Stairlift
	UT Sewer Manhole	Point	A symbols that represents UT- Sewer Manhole
	UT Storm Inlet	Point	A symbols that represents UT- Storm Inlet
	UT Storm Manhole	Point	A symbols that represents UT- Storm Manhole

	Key Electric Shunt Switch	Point	A symbols that represents Key Electric Shunt Switch
	Knox Box	Point	A symbols that represents Knox Box
	Knox Cabinet	Point	A symbols that represents Knox Cabinet
	Knox Drug Vault	Point	A symbols that represents Knox Drug Vault
	Knox Entry	Point	A symbols that represents Knox Entry
	Knox FDC Plug	Point	A symbols that represents Knox FDC Plug
	Knox Residential	Point	A symbols that represents Knox Residential
	Knox Vault	Point	A symbols that represents Knox Vault
	NO KNOX BOX	Point	A symbols that represents NO KNOX BOX

## Layer Category: Key or Knox Box

Layer Description: A simple list of features that identify knox- or key boxes. Uses a green triangle or square for base symbol.

Symbol	Layer	Shape	Description
	Key Card	Point	A symbols that represents Key Card
