

# MUTUAL AID NET

MANAGING ASSETS AT THE LOCAL LEVEL

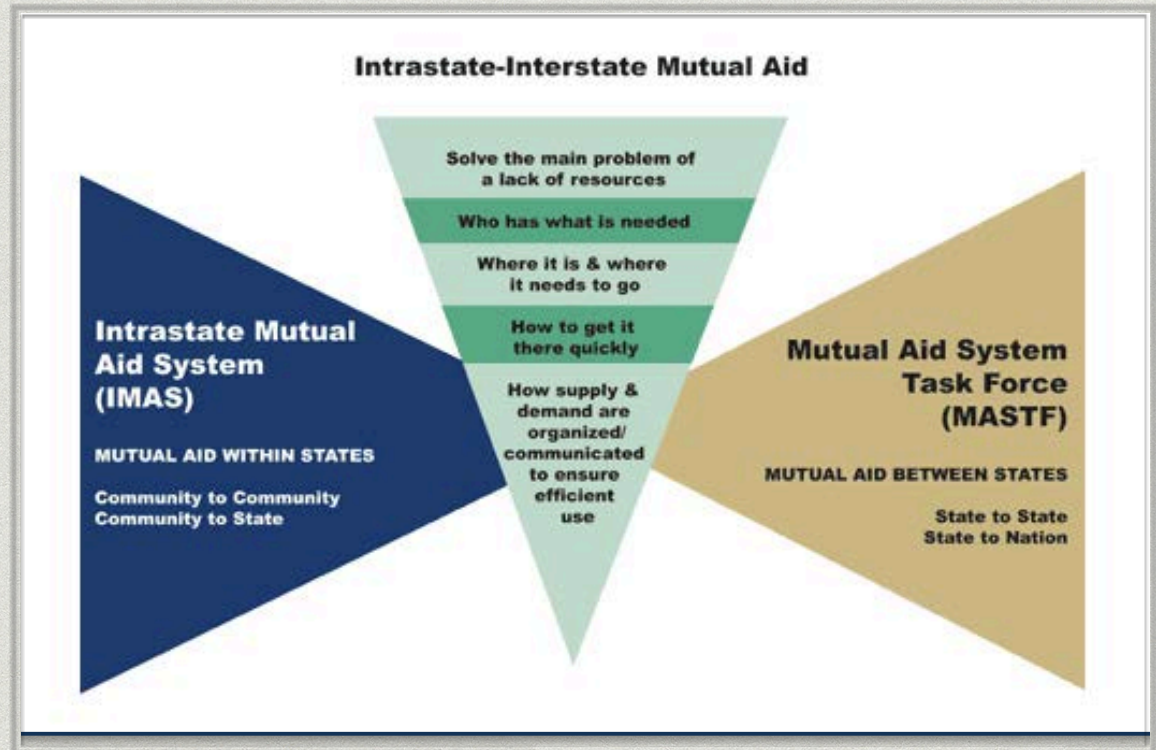

# THE STORY OF MUTUAL AID NET

# The Start

*MutualAidNet* is a statewide resource database and dispatch system used to catalog, locate and deploy the closest and most appropriate resources.

A system that is accessible to all Department/Agencies that are involved

# JOURNEY BEGINS

HOW DO WE BRING VALUE TO  
AN EXISTING SYSTEM AND  
LEVERAGE THE CHANGES IN  
TECHNOLOGY

# Value

- \* A master list of typed resources managed with and at the local level
- \* Includes both Tier-I and Tier-II resources
- \* Started with just ESF-4 assets and has grown
- \* Provides a single database to catalog and manage all the required information needed to facilitate the statewide deployment of mutual aid resources
- \* Accessible to all users

# What are the numbers?

- \* Department/Agencies
  - \* 9,640
- \* Contacts/Users
  - \* 4,978
- \* Resources
  - \* 39,568
