THE FLORIDA DIVISION OF EMERGENCY MANAGEMENT

WEBEOC

The screenshot displays the WEBEOC web application interface. At the top, a blue header bar contains the user login information: "Welcome, richard.butgers@em.floridastate.gov (Logout). You are logged in as SERT TECH SERVICES" and "2018 Michael". The Intermedix logo is in the top right corner. Below the header, a navigation menu includes links for "SERT Missions", "SERT Emergency Sites" (which is highlighted), "SERT Shelters", "SERT Essential Elements of Inform...", "SERT Info Message", "SERT Emergency Teams", and "SERT Damage Assessment".

The main content area is titled "SERT Emergency Sites" and shows a map of a region. The map displays various colored areas representing different sites or regions, with labels such as "N.W. Theo Jacobs Way". A sidebar on the left lists regions: "Region 1", "Region 2", and "Region 3". A search bar is located in the top right of the map area. On the right side of the map, there are buttons for "View", "Edit", and "Add".

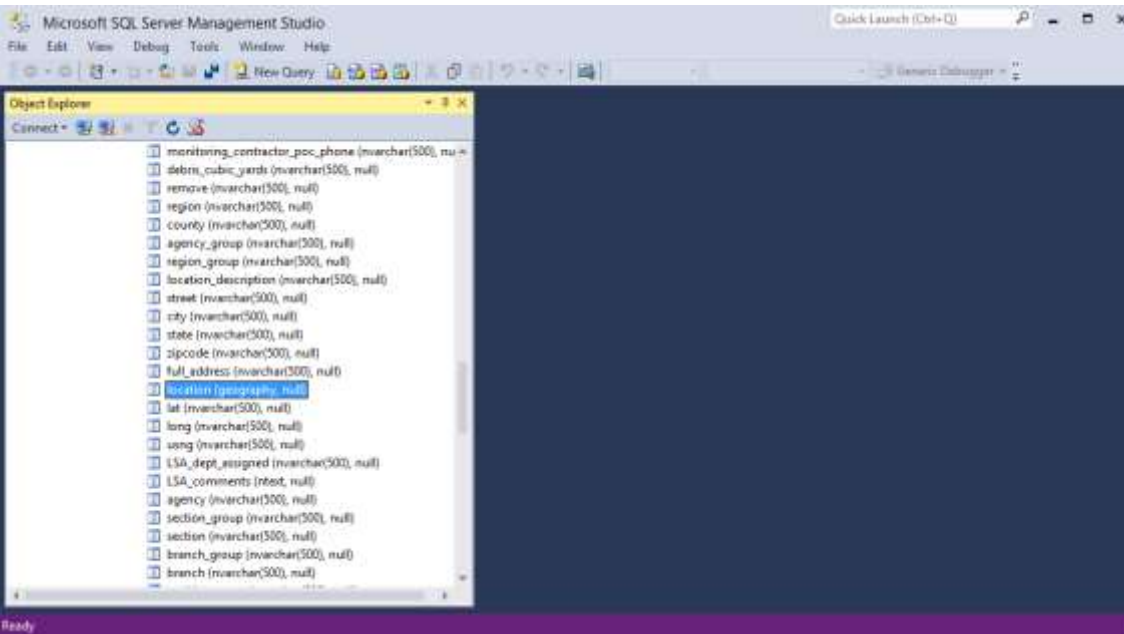

At the bottom of the map, a table provides details for the selected site:

Region	Holmes County	Sonday	ORC #3 - Holmes County Agricultural Center	Disaster Recovery Center	1155 US 90, Sonday, FL 32425	Date	10/29/2018	Map	View

Disaster Recovery Centers

A Disaster Recovery Center or DRC is a readily accessible facility or mobile office where survivors may go for information about our programs or other disaster assistance programs, and to ask questions related to your case. Representatives from FEMA, U.S. Small Business Administration (SBA), volunteer groups and other agencies are at the centers to answer questions about disaster assistance and low-interest disaster loans for homeowners, renters and businesses. They can also help survivors apply for federal disaster assistance. A map of DRCs is available [here](#).

Disaster Supplemental Nutrition Assistance Program

The Department of Children and Families (DCF), in partnership with the U.S. Department of Agriculture (USDA), has initiated the federal Disaster Supplemental Nutrition Assistance Program (D-SNAP) in 12 counties to assist communities impacted by Hurricane Michael. Visit [D-SNAP](#) for more information on pre-registration, site locations, and hours of operation.

Update 11/5/18 - D-SNAP locations in **Bay, Franklin, Gulf, Taylor and Wakulla** are now closed. Locations in **Calhoun, Gadsden, Jackson, and Liberty** will open 11/7/18. Locations in **Holmes, Leon, and Washington** will open 11/14/18.

Mobile Registration Intake Centers

FEMA has deployed Mobile Communications Office Vehicles in the individual Assistance designated counties to serve as Mobile Registration Intake Centers (MRICs) serving survivors until long-term Disaster Recovery Centers are identified. Individual Assistance specialists, Small Business Administration, FEMA Disaster Survivor Assistance, and State Disaster Case Managers will be available at these centers. These centers will be temporarily at these locations and hours of operation will be 9 a.m. - 7 p.m., seven days a week until further notice. A map of MRICs is available [here](#).

Community Lifelines

National Response Framework Update (Fourth Edition)

A lifeline is a sector that provides an indispensable service that enables the continuous operation of critical business and government functions, and is critical to human health and safety, or economic security.

Why a lifelines construct?

Decision-makers must rapidly determine the scope, complexity, and interdependent impacts of a disaster. Applying the lifelines construct allows decision-makers to:

- Prioritize, sequence, and focus response efforts towards maintaining or restoring the most critical services and infrastructure
- Utilize a common lexicon to facilitate unity of purpose across all stakeholders
- Promote a response that facilitates unity of purpose and better communication amongst the whole community (Federal, state, tribal, territorial, and local governments, and private sector and non-governmental entities)
- Clarify which components of the disaster are complex (multifaceted) and/or complicated (difficult), requiring cross-sector coordination

How will lifelines be used?

- Enhance the ability to gain, maintain, and communicate situational awareness for the whole community in responding to disasters
- Analyze impacts to the various lifelines and develop priority focus areas for each operational period during response
- Identify and communicate complex interdependencies to identify major limiting factors hindering stabilization
- Update the National Response Framework to reflect use of lifelines in response planning

What are the opportunities of lifelines?

- Enable a true unity of effort between government, non-governmental organizations, and the private sector, including infrastructure owners and operators
- Integrate preparedness efforts, existing plans, and identify unmet needs to better anticipate response requirements
- Refine reporting sources and products to enhance situational awareness, best determine capability gaps, and demonstrate progress towards stabilization

ESF-4/9 Fire & Search and Rescue

- Conducting statewide region calls to secure status of deployable resources.
- Accepted EMAC proposals for USAR and Swift water resources from Mississippi and LA with teams staging Mobile AL.
- Staging in Ocala for TF1 TF2 and TF6. Planned forward movement to impacted areas beginning midnight.
- Forward Staging in Live Oak for TF 3 and TF4 for deployment beginning at midnight
- Forward staging in Mobile, AL for TF5 for deployment beginning at midnight
- Staging in place for TF8 with deployment beginning at midnight.
- Additional 4/9 assets beginning movement from south florida to staging in Ocala.
- FFS Gold IMT has assumed operational responsibility of USAR.
- Coordinating with FWC and other LEO for USAR team support.
- Requested/Acquired Federal USAR resources for deployment post storm.
- Request for ice, water, MRE submitted for support of deployed 4/9 teams.

ESF-8 Health and Medical

- DOH is supporting ESF-8 missions for Special Needs Shelters and patient requests.
- DOH has 18 Ambulance Strike Teams and 5 Ambulance Strike Teams through the Emergency Management Assistance Compact (EMAC) ready to support with relief efforts and has requested 35 Special Needs Shelter Teams for additional shelter support.
- DOH has contracted with the International Medical Corp to obtain additional resources that include nursing staff, hospital emergency department teams and a hospital augmentation team.
- 3 Federal Disaster Medical Assistance Teams have been requested.

ESF-10 Hazardous Materials and Environmental Protection

- Monitoring Florida State Parks, with a focus on the Panhandle for potential closures. Pre-event Windshield Surveys complete.
- Conducting outreach for high-priority regulated hazardous waste, in the Northwest District.
- 235 Disaster Debris Management Sites (DDMS) have been pre-authorized for the counties addressed by the Governor's Executive Order.
- The Florida Public Debris Reporting Tool is live.
- Issued two emergency final orders to ensure recovery efforts are not hampered or delayed.
- FlaWARN to arrive to the Orlando Division of Water Call Center on 10/9/18.
- StormTracker for Water and Waste Water Incident Reporting, is live.
- State Parks has been put on stand-by to assist in setting up a staging area for Duke Energy at Silver Springs state park.
