THE LOCAL BELL CURVE

Deer in the headlights—fear and anger.

Silent, watching, waiting or asking what do you think?

Oh yeah we got it, you bet, we will get on it and no worries.

Got it, and you can mostly see it!

Got it, can prove it and you can see it!
PROCESS
Goal Statement: Boulder Incident Management Process for a Type 5 to Type 4 Incident and Holding a Type 4 for 24 hours or until relieved.

Wildfire or Smoke Report Call

Communications tones agency
And notifies Emergency Services

Responders identify location of fire and confirm district

Law Enforcement Responding

Is this a small fire / smoke call not escalating?

Run the incident as a type 5 response

Yes

No

Is this a confirmed fire and escalating incident?

Yes

Establish Staging Area

No

Communications Will notify Ft. Collins Interagency Dispatch

Perform Size-Up

Communications Will echo size-up report

Establish Formal Command Post

Law will assume "Law Branch" On green immediately
Performs the following
1. Evacuations
2. Road Closures
3. Animal evacuation

Next incoming resource must take command

Law will move to a formal unified command structure once a delegation is completed and still maintain a Law Branch also.

Use management resources currently on scene to staff middle management ICS positions, Operations Section and Staging.

Level 5 - Location is in the direction of travel and before the last place apparatus can turn around. Level 2 is a remote site / location with a staging manager and a formal check in process.

Establish Command
1. Name it
2. Obtain a tactical frequency
3. Obtain spot weather forecast.

C.I.C.R.S.
Command, location, type of incident, communications, resources, staging

Communications
Use management resources currently on scene to staff middle management ICS positions, Operations Section and Staging.

Is this a incident still escalating incident?

Yes

Additional IMT 3 members called through the State IMT registry

Call for the IMT 3 team through Boulder Sheriff’s Communications who in turn page BOEM for team call out in Everbridge.

Is the Boulder County IMT 3 needed?

Yes

No

Begin Delegation Process and Establish a formal unified command

Law will assume "Law Branch" On green immediately
Performs the following
1. Evacuations
2. Road Closures
3. Animal evacuation

Next incoming resource must take command

Law will move to a formal unified command structure once a delegation is completed and still maintain a Law Branch also.

Begin Delegation Process and Establish a formal unified command

Flagstaff Fire June 26
ECC is open with core activation at 0700, Dan Barber

Flagstaff Fire June 26
Boulder ECC will close at 2200 and reopen at 0700 June 29.

June 26 - 3:04 p.m. - Evening briefing
Here is the latest Flagstaff Fire information as of the Thursday evening briefing:

- The fire is 40 percent contained with a goal of full containment by Saturday.
- No significant growth today and no significant growth expected overnight; still 300 acres in size.
- No structures destroyed, damaged nor threatened and no injuries.
- Fire lines are in place on the west and south sides of the fire area.
- Weather tonight: 54-58 degrees; 53-58 percent relative humidity; gusty winds possible
- Wind gusts may produce visible hot spots overnight
- Crews will be working all night – including patrols near the fire perimeter and on the city of Boulder’s southwestern limits – looking for and putting out spot fires as they happen.

There are no more formal media briefings scheduled.

Emergency Plan

Boulder County Emergency Action Plan.

Department - Administration / Support

Introduction

A fire, flood or other emergency within Boulder County can pose unique problems for building management, building occupants and emergency personnel. Experience dictates that safe and successful decisions during an emergency situation is dependent upon a) a written emergency procedures document, b) periodic review of this document with all employees, and c) a thorough knowledge of your role and responsibilities during an emergency.

In a fire, flood or other emergency situation, occupants may have to rely upon their own knowledge and disciplined response to ensure self-survival.

The procedures in this manual are to be followed unless otherwise directed by Police, Fire Department officials or Boulder County "Key Staff". All Key Staff personnel are required to become familiar with the building emergency equipment and all emergency plans for their "primary" building.

All Boulder County employees should have received emergency procedures in a "Quick Reference" format. If you require additional copies, please contact Risk Management at 303.441.3872. A summary of this "Quick Reference" format is on-line for employee access. Please go to "Inside BC's" Risk Management Site at the following hypertext. Risk Management Emergency Procedures. You may also contact the Office of Emergency Management at 303.441.3300 for additional emergency management information. The "Quick Reference" Guide is also available for viewing online at www.boulderco.com.

It is important that all Boulder County employees familiarize themselves with their building's life safety features which are vital to the safety and security of employees, users and clients. We may be faced with natural and man-made emergency situations and must be prepared to cope with them should they occur. Since you are a County department and probably located within the City jurisdiction, either city police or county sheriffs deputies may respond to your area depending on the size of the emergency. Police will be used in this document as a generic law enforcement term.

The All Hazards Alert System (AHAS)

The symbol for this system is the familiar "green/yellow/red" traffic light. Green light means everything is normal, but you should maintain your situational awareness and observe your surroundings. The yellow light means to analyze the situation, be cautious, find out what is happening and then decide what actions to take. The red light indicates that you must stop what you are doing, take action now, and fully implement your emergency plans.

WebEOC

Log into WebEOC for significant incident information, press releases, and road closures. Using the City and County Employee login, you can see the most current information of the emergency. This site will also provide you with a link to your Continuity of Operations Plan (COOP) and your Emergency Action Plan. https://boukcco.webocasp.com

Important Telephone Numbers

When calling 911, provide your name, building address and location within the building. In the event of a catastrophe, it is possible that the County's telephone (IP) system will fail. However, if the phones are working be aware that it is not necessary to dial a "0" prefix first. Each division should provide "Key Staff" with a cell phones for
